

Looking for Riello Oil Burner Accessories?

**mitco**  
MFG.

is Your 1-Stop Source for these innovative Riello Service Tools:

## #P115-10M Pump Test Manifold

**All the features of the Kwik-Check II  
& Oil Watcher in one tool.**

- Adapter Fittings included for all pumps, including Riello.
- Liquid filled gauges for accurate readings.
- Accurately checks pressure, cutoff and vacuum under actual operating conditions.
- High pressure hoses for setting up today's higher pressure pumps.

## #E55-4M Riello Flame Simulator

**E55-4M just made priming  
your Riello pump easier.  
By simulating a flame, the burner  
is kept from going off on safety.**

- Hands free operation.
- Quick and easy installation.
- Instructions included.
- Works best when used with the T400M Electronic Igniter Tester.

## #T400M Electronic Igniter Tester

**Using the T400M is the best method  
of accurately, quickly and safely testing  
solid state electronic igniters.**

- Works on all solid state oil igniters and Riello gas igniters.
- No disassembly of ignition system required.
- No exposure to high voltage connections.
- Solid state accuracy - no misleading meter reading or interpretation
